Hi Paul,

From what I understand, the VDT microfilm is currently being digitized by Newspapers.com in coordination with the [South Georgie Regional Library](#) in Valdosta. The [newspaper.com](#) VDT link is <https://www.newspapers.com/paper/the-valdosta-times/32014/?locale=en-US>. But we don't have a subscription so I'm not sure how much has been done, or what the status of the project is. But the good news is that it is being digitized.

Also, I am currently working on a new Valdosta Daily Time photograph index which has all the VDT photo negatives from the paper going back to the fifties. If a VDT article had photographs taken at the time, it's likely we have the original photo negatives for it. The website is not online yet, but I'll look through it and see if I can find anything. And if I do, I'll let you know. If you can think of any other search terms to try let me know. This photograph index website should be up and running in the next month or so and we will have links to it on our [website](#).

If there is anything else we can help with let us know. Have a good day!
